

P2P Solution Support

Applying technology to drive real value

Are you struggling with capturing the benefits from your digital transformation journey or looking to outsource or augment your supplier services capabilities?

SupCat understands that Buyers, Suppliers and Solution Providers may not always have the bandwidth, staffing or experience to handle the unique tasks required to accelerate the change required to drive real value. This could include; project activities, streamlining processes, troubleshooting issues, operational tactical tasks, driving change, and monitoring compliance. We offer a variety of services to assist you in maximizing value from your investments.

► Our P2P Solution Support Includes *:

- Project Management
- Product Management
- Communications
- Change Management
- Training
- PO Processing
- Reporting
- Ad-Hoc Requests

► Business Benefits:

- Reduction in operational costs
- Productivity improvements
- Best practice utilization
- Staffing flexibility – scalable capacity
- Risk reduction

► Our Commitment:

- **Experience** – highly skilled in large, complex, global deployments
- **Technology Agnostic** – our services support any solution
- **Standardized Processes** – for automation and scale
- **Streamlined Handoffs** – between implementation and run state
- **Flexibility** – adaptable to meet your unique business requirements

Digital world-class procurement requires strong transformation capabilities

Here's how:

99%

Spend visibility at the supplier, category and line-item level (compared to 38% of the peer group)

2x more

No-touch orders
